PROFESSIONAL SUMMARY

Motivated and detail-oriented Informatics Engineering graduate from Universitas Muhammadiyah Magelang with a strong foundation in web development, front-end technologies, and problem-solving. Experienced through an internship and several self-driven projects. Eager to contribute to a professional development team and continue learning modern web technologies.

EDUCATION

Universitas Muhammadiyah Magelang

Bachelor's Degree in Informatics Engineering (GPA: 3.51 / 4.00)

Graduated: 2025

INTERNSHIP EXPERIENCE

Web Developer Intern

Public Relations Division, Magelang City Police Department

Aug 2023 - Dec 2023

- Collaborated with the Public Relations team to digitize report documentation workflows across multiple police stations (Polsek).
- Designed and implemented SPLD (Sistem Pendataan Laporan dan Dokumentasi), a web-based platform for collecting and managing multimedia reports (text, photo, video).
- Developed an admin dashboard for data review and news preparation.

PROJECTS

SPLD (Sistem Pendataan Laporan dan Dokumentasi)

- Created a full-stack web application for collecting and managing incident reports submitted by local police stations.
- Supported multimedia uploads (text, image, and video) with a structured database for centralized access.
- Implemented an admin dashboard for Humas officers to manage and prepare reports for publication.
- Technologies: React JS, Express JS, MySQL.

Foman Kreasi (Printing Business Website)

Client Project – Product Catalog & CMS Platform

- Developed a production-ready website for a printing business to establish its online presence and digital product catalog.
- Built a content management system (CMS) that allows administrators to create, update, and manage product data efficiently.
- Implemented product catalog and detail pages to improve customer experience in exploring printing services.
- Integrated WhatsApp-based ordering system to enable direct and fast communication between customers and the business.
- Technologies: Next JS, PostgreSQL, Tailwind CSS
- Link: [Live Demo](#)

Personal Portfolio Website

Personal Branding & Web Developer Showcase

- Developed a personal portfolio website to present my profile as a web developer.
- Showcased selected projects, certifications, technical skills, and professional background.
- Built a responsive and accessible user interface compatible across desktop and mobile devices.
- Applied clean code structure and reusable components for maintainability.
- Deployed the website publicly to support job applications and professional networking.
- Technologies: Next JS, Tailwind CSS, TypeScript
